## HOW TO DO IT

Switch between ideas during a study session. Don't study one idea for too long.

Make links between different ideas as you switch between them.

## HOLD ON!

While it's good to switch between ideas, don't switch too often, or spend too little time on any one idea; you need to make sure you understand them.

Interleaving will feel harder than studying the same thing for a long time. But don't worry - this is actually helpful to your learning!
